News For Two's 2012

January went pasted in a blink of an eye. We had a lot of fun during our outer space unit. The children were excited learning about rockets as well as the sun, the moon, and the earth. I am also very happy with how well the children are recognizing the letters in their name.

For February, the children are going to learn about Valentine's Day and friendship. We will be talking about what traits make a good friend. We will also expand on our letters and try to become familiar with as many as we can. For our Valentine's Day party, please remember only store bought snacks with no peanuts or bananas, thank you. The children will be making boxes in class to hold their Valentines. It will be easier to pass out any cards if the children only sign them and do not address them. We have ten children in our class. Also, just a reminder that we will still go outside as long as the temperature is above thirty degrees; please make sure your child has clothes to stay warm.

In Chapel and faith, we will be practicing the song, What Wondrous Love Is This. The children will be singing it in March. We will also continue reading from our children's Bible.

Important Dates:

TBA – A scientist will do experiments for the children.

February 5th –Children sing at 10:30 service - HAPPY BIRTHDAY LOGAN

February 10th – Book Orders Due

February 14th – Valentine's Day Party
